Business/Brands Certified:

MediaCom North

Service provided:

Agency

Month of verification:

February 2020

Good Practice Principles

How MediaCom North complies

1 The Buyers and sellers of digital display advertising shall ensure that the transaction is one pursuant to either (a) a Primary Agreement or (b) the specific terms and policies within an agreed or signed contract.

MediaCom North work with buyers to agree a campaign Media Plan.

Sellers agree to MediaCom North's Insertion Orders (IO's), agreeing to the GroupM Terms & Conditions (Ts & Cs) for digital advertising.

Where MediaCom North agree to the sellers' Ts & Cs, these will be approved by GroupM centrally.

2 A Primary Agreement, or the specific terms and policies within an agreement or signed contract, should include the Buyers' and Sellers' intention as to where the advertising should (or should not) appear.

MediaCom North Media Plans contain detailed targeting instructions and the IO's contain intentions as to where advertising should not appear.

The Buyers and Sellers should select from one or both of the following means to minimise as misplacement:

MediaCom North run all campaigns on the GroupM whitelist as standard.

A. Independently-certified (to JICWEBS standards Content Verification (CV) tool (criteria agreed between the Buyer and Seller pre-delivery): or

At the buyers' request, MediaCom North will run a campaign on the GroupM Mandatory Exclusion list only.

B. Appropriate / Inappropriate Schedules (criteria agreed between the Buyers and Sellers pre-delivery).

Buyers can provide their own whitelist or blacklist to run against their campaigns.

3 Sellers should confirm the specific provisions applied to minimise the risk of ad misplacement, irrespective of whether inventory is sourced directly or indirectly. In the absence of specific provisions, then as a minimum, a statement of reasonable endeavours is required.

MediaCom North's Brand Safety Policy is covered under the GroupM policy and states:

"We believe that our clients should invest in digital advertising which is...served in an appropriate editorial environment, underpinned by independent industry certification and 3rd party verification..."

“This policy document describes the governance processes which GroupM UK uses to minimise the risk of clients’ advertisements being placed next to content that is not contextually brand safe...”

The GroupM Brand Safety Policy is available at the following link:

<https://groupm-assets.s3.us-east-2.amazonaws.com/s3fs-public/GroupM%20UK%20Brand%20Safety%20Policy.pdf>

This link is also included the MediaCom North Media Plans, IO’s and Group M Ts & Cs.

4

Sellers should be able to explain the process(es) that form the basis of specific provision and/or the reasonable endeavours.

MediaCom North’s processes for minimising the risk of ad misplacement have been summarised as follows:

Vetting

All of MediaCom North’s media partners are vetted before engaging in a direct trading relationship via GroupM’s 32-step vetting process*.

Where campaigns are set up on social media platforms, MediaCom North discusses any potential brand safety risks directly with the buyer.

Appropriate Schedules

As standard, MediaCom North run all campaigns on the GroupM vetted whitelist.

Buyers are able to provide their own whitelist to run against their campaigns.

Inappropriate Schedules

At the request of a buyer, MediaCom North will run a campaign against the GroupM Mandatory Exclusion list instead of the whitelist. This list is curated via independent verification technology and by using input from the City of London Police*.

Buyers are able to provide their own exclusion lists of domains and keywords to run against their campaigns.

Technology

All campaigns are monitored using Integral Ad Science (non-JICWEBS Certified) with the option for buyers to use IAS in blocking mode.

MediaCom North have partnered with Open Slate for clients to target YouTube campaigns towards content deemed suitable.

MediaCom North also monitor all campaigns using GroupM’s proprietary monitoring technology (non-JICWEBS Certified).

*The GroupM Whitelist and Blacklist are curated centrally by GroupM and therefore these processes were verified as part of the GroupM Certification.

5 Both Buyers and Sellers should understand any contractual consequences should they fail to monitor this process and respond appropriately to ad misplacement via take down.

The signatory's take down policy and procedures must be in place, clearly defined and communicated to each customer, including timeframes for take down of misplaced ads.

MediaCom North adhere to the GroupM Take Down Policy which is included in the GroupM Brand Safety Policy. It states:

"In the event an advertiser deems the content their ad is displayed against to be inappropriate, we operate a takedown policy to remove delivery across such content within 3 hours of communication. Where external parties are in breach, they are liable to pay compensation to GroupM as per the GroupM UK publisher terms and conditions."

6 The signatory must have procedures in place for handling, tracking and monitoring complaints raised under the DTSG Logged Complaint Monitoring Procedure.

MediaCom North have internal procedures in place for handling, tracking and monitoring complaints raised under the DTSG Logged Complaint Monitoring Procedure.

7 Are there any other brand safety measures which you undertake which you might want to inform the market about, for which documentation can be provided, and which can be independently verified or audited?

All applicable brand safety measures are addressed above.

Statement of verification provider:

We have reviewed MediaCom North's policies and procedures for minimising ad misplacement in accordance with the JICWEBS DTSG Good Practice Principles. Our enquiries were designed to independently confirm that the brand safety policies stated have been implemented and clearly documented where required. Our review did not extend to testing the effectiveness of any processes, procedures or controls for ad misplacement. In our opinion, at the time of our review MediaCom North had established policies to minimise ad misplacement as described in the JICWEBS DTSG Good Practice Principles.

About JICWEBS

JICWEBS (Joint Industry Committee for Web Standards) defines best practice and standards for digital ad trading in the UK and our mission is to deliver recognized trust and transparency to the market. JICWEBS is made up of the following trade bodies: Association of Online Publishers (AOP), Internet Advertising Bureau (IAB) UK, ISBA – the voice of British advertisers – and the Institute of Practitioners in Advertising (IPA).

About Digital Trading Standards Group (DTSG)

The Digital Trading Standards (DTSG) is an UK industry body made up of representatives from across the digital display advertising ecosystem, including the buy- and sell-side. The DTSG is comprised of representatives from advertisers, agencies, agency trading desks, demand side platforms, advertising exchanges, sales houses, advertising networks, supply from side platforms and publishers.
