Business/Brands Certified:

Total Media

Service provided:

Agency

Month of verification:

May 2019

Good Practice Principles

How Total Media complies

1 The Buyers and sellers of digital display advertising shall ensure that the transaction is one pursuant to either (a) a Primary Agreement or (b) the specific terms and policies within an agreed or signed contract.

Digital advertising transactions are governed by Total Media’s Media Plans, referencing Total Media’s Terms and Conditions and Total Media’s Brand Safety Policy.

Total Media has signed Master Service Agreements and Insertion Orders with Sellers where Total Media agree the Sellers terms and conditions

2 A Primary Agreement, or the specific terms and policies within an agreement or signed contract, should include the Buyers’ and Sellers’ intention as to where the advertising should (or should not) appear.

Total Media’s Media Plans contain intentions and/or targeting instructions of where advertising should (or should not) appear.

The Buyers and Sellers should select from one or both of the following means to minimise as misplacement:

Total Media implement blocking within their programmatic sellers for the following types of content:

A. Independently-certified (to JICWEBS standards Content Verification (CV) tool (criteria agreed between the Buyer and Seller pre-delivery): or

- Mature Audiences
- Content not yet labelled
- Sensitive subjects including tragedy, conflict and sensitive social subjects.....
- Profanity

B. Appropriate / Inappropriate Schedules (criteria agreed between the Buyers and Sellers pre-delivery).

Buyers can also provide Total Media with their own blacklist to run against their campaigns.

3 Sellers should confirm the specific provisions applied to minimise the risk of ad misplacement, irrespective of whether inventory is sourced directly or indirectly.

Total Media confirms the specific provisions applied to minimise the risk of ad misplacement in their Brand Safety Policy contained within the Total Media Plans.

The Brand Safety Policy States:

“Total Media are committed to ensuring our clients are protected as far as possible in terms of ... Brand Safety We deliver this through a number of measures”

4

Sellers should be able to explain the process(es) that form the basis of specific provision and/or the reasonable endeavours.

Total Media explains the processes applied to minimise ad misplacement in their Brand Safety Policy included in their Media Plans for all clients. It states:

"Blacklists

We run client-specific blacklists, to ensure your activity only runs in approved environments. As an additional measure on the biddable channel used, Total Media also exclude the following:

- Most audiences with parental guidance
- "Mature audiences" - excludes videos with mature them
- Content not yet labelled
- Sensitive subjects (tragedy and conflict; sensitive social issues; sexually suggestive content; sensational and shocking content; profanity and rough language

Verification Partners

Upon client request, Total Media will implement the Firewall by Integral AdScience (JICWEBS Certified), to block impressions for non-brand safe placements."

5

Both Buyers and Sellers should understand any contractual consequences should they fail to monitor this process and respond appropriately to ad misplacement via take down.

The signatory's take down policy and procedures must be in place, clearly defined and communicated to each customer, including timeframes for take down of misplaced ads.

Total Media's Brand Safety Policy is included within Total Media's Brand Safety Policy and states:

"If for any reason our clients' advertising appears in unsuitable environments, we will implement our takedown procedure. Please contact your Client Service Account Director with details of any placement you deem to be unsuitable for your brand. Once received, activity will be paused while the placement is investigated, with takedown requests being implemented within 24 business hours at the very latest.

In the event that a takedown request is received outside of standard UK business hours, please refer to your individual terms and conditions with regards to communication procedures and timelines."

The contractual consequences of any ad misplacement will be defined in accordance with the terms and conditions agreed on either the Media Plan or on a case by case basis with the buyer.

6

Are there any other brand safety measures which you undertake which you might want to inform the market about, for which documentation can be provided, and which can be independently verified or audited?

Statement of verification provider:

We have reviewed Total Media's policies and procedures for minimising ad misplacement in accordance with the JICWEBS DTSG Good Practice Principles. Our enquiries were designed to independently confirm that the brand safety policies stated have been implemented and clearly documented where required. Our review did not extend to testing the effectiveness of any processes, procedures or controls for ad misplacement.

In our opinion, at the time of our review, Total Media had established policies to minimise ad misplacement as described in the JICWEBS DTSG Good Practice Principles.

About JICWEBS

JICWEBS (Joint Industry Committee for Web Standards) defines best practice and standards for digital ad trading in the UK and our mission is to deliver recognized trust and transparency to the market. JICWEBS is made up of the following trade bodies: Association of Online Publishers (AOP), Internet Advertising Bureau (IAB) UK, ISBA – the voice of British advertisers – and the Institute of Practitioners in Advertising (IPA).

About Digital Trading Standards Group (DTSG)

The Digital Trading Standards (DTSG) is an UK industry body made up of representatives from across the digital display advertising ecosystem, including the buy- and sell-side. The DTSG is comprised of representatives from advertisers, agencies, agency trading desks, demand side platforms, advertising exchanges, sales houses, advertising networks, supply from side platforms and publishers.
